Seat Spring: 8-way hand tied  
Shipping Info: corrugated carton  
Shipping Weight: 191  
Cubic Meters: 2.119

SS37503-089- SevenSeas by Bradington-Young

#### Limited Warranty Information

This product is warranted to the original retail purchaser as follows:

Two Year Limited Warranty: Executive seating and reclining chair mechanism are warranted against defective materials or workmanship for a period of two years from the date of original purchase. One Year Limited Warranty: The frame padding and filling materials are warranted against defective materials or workmanship for a period of one year from the dated original retail purchase. After the first year of purchase, the mechanism warranty covers replacement parts only and does not cover labor or shipping costs of parts. To make a claim under this warranty, please contact the dealer from whom the product was purchased with your dated proof of purchase. Warranty Limitations This warranty does NOT include: The wearing quality, durability, or color fastness of leathers. Any condition resulting from incorrect or inadequate maintenance, cleaning or care. Any condition resulting from other than ordinary residential wear, or from any use for which the product was not designed. Normal softening and puddling of the foam and fibers in seat and back cushions, which should not be considered a defect, nor confused with abnormal wear and loss of resiliency. From time to time, your Seven Seas Seating will need "fluffing up" as any upholstered furniture does and should be regulated with use. Seven Seas highly recommends the use of an appropriate floor mat under Executive Chairs. Failure to use such floor mats will result in caster failure in these chairs.

#### Construction Story Inside and Out

Frames: Kiln dried, laminated, and select hardwoods that are precision machined for fluid and consistent shape. Our 100 series stationary features modular frame, or bolt on, construction. Our 300 series stationary features double doweled joints that are corner blocked, glued, and screwed into position for strength. Seat Deck:

Our 100 series utilizes a webbed seating system that is computer gauged for consistent support from seat to seat. Our 300 series stationary seating features double cone coil springs that are eight-way hand tied and secured to full polypropylene webbing which is reinforced with steel bands that run from front rail to back rail and also from side rail to side rail.

Our club chairs incorporate customized seating systems that vary within each series of chairs. CC400 Series -- Genuine eight-way hand tied springs  
EW500 Series -- Computer gauged web seating  
CC600 Series -- Genuine eight-way hand tied springs  
CC700 Series -- Genuine eight-way hand tied springs

Cushion: A high resilient, high density foam core wrapped with virgin polyester fibers, assuring luxurious comfort and pleasing crown appearance.

This is then covered with a special ticking for pillow soft comfort.

Backs and Headrests: Filled with precision cut foam and highly resilient polyester fibers or filled with 100% virgin polyester fibers enclosed in a special ticking for pillow soft comfort. Interior Filling: Pattern cut urethane foam that is padded with felt polyester fibers, assuring the important qualities of comfort, loft, resilience, and good recovery.
